

**Shivam Petrochem Industries** incepted with the ideology to cater to the pharmaceutical industries by providing the best solution as per their requirement. We, Shivam Petrochem Industries, are an ISO 9001: 2015 certified company and strictly comply with GMP guidelines for producing intermediates for Pharmaceutical industries. We adhere to our stringent policies, values, and regulatory standards and assure the best quality, on-time delivery, and customer satisfaction.

## PRODUCTS

- **Trityl Chloride (TTCL)**

**CAS Number:** 76-83-5

**Application:**

- Used as an intermediate for Losartan Potassium, Remoxiprone, Zidovudine, Candesartan

- **1-[(2-Chlorophenyl)(Diphenyl)methyl] 1H-imidazole (Clotrimazole IP/BP/USP)**

**CAS Number:** 23593-75-1

**Application:**

- Used for antifungal applications.

- **Methylene Dibromide (Dibromomethane)**

**CAS Number:** 74-95-3

**Application:**

- It is used as a solvent, gauge fluid, and in organic synthesis. It is also used in the manufacture of agrochemicals, biocides, fragrances, and pharmaceuticals.

- **2-Chlorotrityl Chloride (2CTC)**

**CAS Number:** 42074-68-0

**Application:**

- Used in the manufacturing of Clotrimazole API- an antifungal drug

- **Para Toluene Sulfonyl Chloride (Tosyl Chloride)**

**CAS Number:** 98-59-9

**Application:**

- It is used as an intermediate for the synthesis of dyes, pigments, and drugs.

- **Bromochloromethane (CBM)**

**CAS Number:** 74-97-5

**Application:**

- It is used in the preparation of insecticide, pesticide, fungicides and in manufacturing of bulk drugs named Remimazolam.

# MISSION & VISION

## Mission

To provide best possible solution (or best quality products) using innovation, research and re-engineering to ever demanding pharmaceutical industries in the most economical and sustainable way.

## Vision

To be best supply partner for fulfilling the needs of pharma intermediates by providing the best quality, on time delivery and customer satisfaction.

## VALUES

We follow **3E's** as our values

 ETHICS

 ENERGY

 EFFICIENCY

## CONTRACT MANUFACTURING

In response to increasing complexity of drug substances, pharmaceutical companies face many challenges in developing and manufacturing them. To bring solutions to market faster, pharmaceutical companies must innovate and produce more rapidly, and keep costs in check or even reduce them. Thus CDMO or CMO services become quite evident to be offered to innovators, process owners who are keen on developing new products and commercialising it on large scale.

## CHEMISTRY WHICH WE CAN HANDLE

- Friedel Crafts Alkylation
- Friedel Craft Acylation
- Chlorination
- Hydro-chlorination
- Sulphonation
- Bromination
- Hydrogenation
